

# KIPALO

## Fact Sheet

In the Taita language Kipalo means “a special place where one returns to again and again”. Kipalo is set in 12,000 acres of conservancy bordering Tsavo west national park, 2 1/2 hour drive from Mombasa. The conservancy is a really important dry season dispersal area for mainly Elephant and Buffalo, but there are numerous other species of wildlife and the birding is fantastic.

## Facts at a glance

**Location**

Tsavo West

**Setting**

Set amidst the Mbulia Hills bordering and overlooking Tsavo West National Park and Kilimanjaro in the distance.

## How to get there

Scheduled air service- Safarilink fly once a day

07.30-8.20 to Kilaguni, followed by 3 hour game drive through the park and rhino sanctuary (vehicle with refreshments and snacks)

Additional option of flight to Voi (special conditions apply contact for more information)

Drive from Nairobi is 5 hours mostly on tarmac followed by 15km of off-road driving (4 wheel drive necessary!)

## Accommodation

A simple comfortable camp with delicious, fresh innovative cuisine. 8 luxury double mobile tents with en-suite flushing loo and shower (hot and cold plumbed water). Tents are either twin or double with room for an extra bed. A lounge mess and dining area. From July 2012 there will also be a swimming pool.

## Activities

Easy access to Tsavo West and East for game drives. Fabulous bird life in Tsavo to see.
